Stahnsdorfer Str. 150C, 14482 Potsdam, Germany

## Android Dev.

4 years of exp.

I've published over a dozen apps with 5 million downloads and 600k sessions per month. My monetized apps generated \$120k revenue and were featured as must have app.

## Backend Dev.

3 years of exp.

My API backends perform 90 million data store operations per month, relying on highly-scalable App Engine instances. I was finalist at the world wide Google Cloud Dev challenge.

## Web Design

3 years of exp.

290k unique visitors enjoy content on my websites every month. With sites that were featured on Vsauce and the reddit frontpage, my ad revenue is able feed me 95 Ikea hotdogs per day.

## Prototyping

3 years of exp.

Although I do know how to create solid products, being able to build prototypes fast helps a lot in an iterative UI and UX design process. Lorem ipsum dolor sit amet, cossect.

## Experience

I founded my own business in 2012, which I use to distribute my apps and for freelance jobs as Android developer. I've also been working for different companies in the past and gained valuable experience during that time.

**HPI** Hasso Plattner Institute Oct 2013  
Android developer in Potsdam Jun 2015

I lead the Android section of the Mobile Developer Group at the HPI for 2 years, introduced students and everyone who was interested to Android development and gave talks about advanced topics. Also coordinated developer groups working on larger projects and organized regular meetups.

**OUTFITTERY** Aug 2014  
Android developer in Berlin Oct 2014

Designed and developed prototypes for OUTFITTERY's mobile app on Android, based on their existing iOS counterpart. Implemented Google design guidelines and matched the existing corporate design for a smartphone and tablet optimized version.

**IPS Carsten Ilwig** Aug 2013  
Web developer in Ludwigsfelde Oct 2013

**Ozone** Aug 2012  
Web developer in Berlin Sep 2012

**T&T Datentechnik** Jul 2011  
.NET developer in Ludwigsfelde Mar 2012

**ALLY Systemhaus** Jan 2011  
.NET developer in Berlin Dec 2011

## Awards & Certifications

This is a list containing some of my IT related achievements. Please refer to my online CV for a more complete version. You can also learn more about my award winning projects and prototypes there.

**Top Developer**  
Awarded by Google

Top Developer is a badge recognizing established, respected developers for their commitment to launching high-quality and innovative apps on Android. That badge was assigned to me by the Google Play editorial staff.

**MINT Award for IT**  
Awarded by DATEV

The MINT Award is a yearly, Germany wide honoring. My Remote Control Collection app has been selected as a winner by representatives from bitkom, GI, MINT, DATEV and audimax.

**Microsoft Technology Associate**  
Certified by Microsoft

Passed the MTA certification exam for Database Fundamentals. Covered topics: Core Database Concepts, Creating Database Objects, Manipulating Data, Data Storage, and Administering a Database.

**Hackathon Runner**  
Awarded by me

I love attending hackathons all around the world. Meeting like-minded people and creating stuff in just a few hours always motivates me to sacrifice a weekend. Overall I joined over a dozen hackathons and won more than half of them.

## Education

I had the pleasure to study at one of the highest ranked universities in Germany. Since 2009 I've been learning something new about IT every day - and my passion for computer science has evolved ever since.

**HPI** Hasso Plattner Institute Oct 2012  
Bachelor of science in Potsdam Aug 2016

I'm currently studying IT Systems Engineering at the HPI, with specializations in Internet & Security Technology and Human Computer Interaction. Right now I'm working on my Bachelor project: Passwords are Obsolete - User Authentication through Wearables and Mobile Devices.

**Oberstufenzentrum TF** Sep 2009  
High-school diploma in Luckenwalde Jul 2012

I made my high-school diploma at the OSZ-TF in Luckenwalde with focus on Media and Design Technology. During that time I took classes in UI and UX design, learned how to work with the Adobe Creative Suite and founded my first own business. Also got started with Android development in 2011.

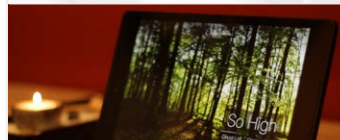

## Projects

During the past years I created a lot of mobile, desktop and web apps, ranging from small side projects to top ranked products that are used all over the world every day. I'd love to tell you more about each one, but I guess your time is limited.

**Remote Control Collection**  
remote-control-collection.com

With over 5 million users in all but 9 countries of the world the Remote Control apps are my largest project so far, allowing you to control any PC, Mac or IoT ready device in your network. It has been featured as "Must Have App" on Google Play and "Top Productivity App" on the BackBerry World.

**ChillingVibes**  
chillingvibes.com

ChillingVibes is a web radio that combines beautiful photos with relaxing music. The site is hosted on the Google App Engine, served by a Google Go backend using a Bigtable datastore. It was used on mayor conferences like the SAP TechEd and featured on Vsauce and the reddit frontpage.

**HPI App**  
hpi.de

I coordinated a group of 18 developers to build the modules for this app, merged them and implemented the corporate design as well as special security requirements for accessing internal data. Also organized meetings, splitted up developers into productive teams and assigned tasks based on their skill levels.

**More fancy stuff**  
blog.stepschuh.net

If you are curious what other projects I've been working on, my blog would be a great place to start your research. You'll find a bunch of apps, 3D printed stuff, laser cut robots, IoT hacks and more. Links to my social profiles are also available, in case you want to connect with me.
